KNOW MIGRAINE MISSION™

The world needs to know migraine is not just a headache, it's a complex neurological disease

Join us on our mission with this official awareness logo

KNOW MIGRAINE MISSION™

Spread the knowledge
Spread the acceptance

Misinformation about migraine can take a toll on families, friendships, and jobs.

That is why we believe it is time **to help the world understand that migraine isn't "just a headache," but a complex neurological disease** with real impact so people with migraine can feel better understood and supported.
